

5. Project Sunshine

Warm-up

Join the numbers to complete this drawing of a plane. Then colour the plane.

Jeet and his friend, Rakesh, were talking about their EVS project. Jeet asked Rakesh what he was making. Rakesh could not hide his excitement. "I am making a model of our school with my dad. What about you?"

Jeet made a face. "If only I could figure that out," he muttered.

As he looked out of the window thinking hard, he saw an aeroplane flying into the horizon.

muttered *said something in a low voice*

"Idea!" he shouted. "I am going to build a model plane. Let me ask Uncle Shreesh."

Uncle Shreesh arrived on Saturday morning. He looked as smart as always. He was a **pilot** with the Indian Air Force.

Uncle Shreesh was all smiles. "Don't you worry, Jeet. You **will** have the best project in your class. But we must work to a plan. First, we need a ..."

"Design," cried Jeet who had already found out a thing or two on making

toyplanes from the Internet, with the help of his father.

Uncle Shreesh made a sketch. Jeet wrote down the measurements as Uncle Shreesh called them out.

Then, with the help of Uncle Shreesh, he quickly drew up a list of things they would need.

- 1 piece of wood for the body
- some smaller, thinner pieces of wood for the wings and tail
- 2 ice cream sticks for the **propellers**
- 1 round wooden stick for the nose
- a small piece of iron wire or paperclip for the **axle** of the propellers

Then he made the list of tools.

- saw
- wire cutter
- sanding paper
- wood glue
- drill

axle

a metal bar that connects a pair of wheels in a car or other vehicle

Jeet was almost in tears when he opened the toolbox. "But we don't have all these in the toolbox," he cried.

"Don't worry," said Jeet's father, "We will buy all these from the market. Let's get in the car." He was eager to get started.

They spent the morning at the market, buying each item carefully.

After they came back, the three sat down to the task. Mother made them tea and sandwiches.

Jeet helped Uncle Shreesh and his father build the plane.

They took the bigger piece of wood for the body, and drew the design on one side. Then they cut out the basic shape with the saw. When the basic shape was done, they used sand paper to make the edges smooth.

For the wings and tail, they took some small pieces of wood. They drew the wing and tail measurements on the wood and sawed those off.

Then came the fun part!

Jeet glued the pieces of wings and the tail together.

 For the propellers, they used two ice cream sticks. They glued the two sticks onto each other in the middle.

Jeet watched as Uncle Shreesh filed a larger round stick until it was the right shape. That was to become the nose of the plane. Bit by bit, the plane was taking shape.

And finally, it was ready!

"Yippee," shouted Jeet. "May I paint it now?" "Of course," said his father, smiling broadly. Jeet painted the plane bright yellow.

"Can I fly it now?" asked Jeet once the paint was dry.

"Of course," laughed Uncle Shreesh. "Ask your friends to join you. Boy, they will be thrilled!"

In no time, Jeet and his friends were running around the playground, pretending to fly the toyplane. "What fun," the children cried together.

"Have you thought of a name for your plane?" asked his father.

"I shall call it *Sunshine*," Jeet replied proudly.

Jeet couldn't wait to take the plane to school. That night, he put his proud creation inside a large cardboard box. On the box, in bright shining red letters, he wrote:

Jeet Gupta

Class 3

EVS Project

Reading

(reading for main ideas)

A. Answer these questions. Check your answers.

1. What were Jeet and Rakesh discussing?
2. How did Jeet hit upon the idea for his project?
3. What were the things that they would need?
4. How did Jeet help his uncle and father build the plane?

B. Work in pairs and state if these sentences are true (T) or false (F).

1. They got the materials for building a plane from the market. _____
2. They made the propellers out of two plastic combs. _____
3. Jeet painted his plane bright yellow. _____
4. Jeet was in Class 3. _____

C. Think and answer.

(reading for inference; HOTS)

1. What do you think Jeet enjoyed the most while helping his father build the plane?
2. Why do you think Jeet chose to colour his plane bright yellow?

D. Discuss in class.

confidence

CT

COM

(value-based question)

Discuss how Jeet might have felt after the plane was ready. Describe a similar experience of yours.

Using Grammar

(personal pronouns)

Words such as **I, me, he, she, him, her, it, we, us, you, they** and **them** that can take the place of nouns are called **personal pronouns**.

- Jeet's uncle was building a plane. **He** drew a design.
- Jeet handed **him** (Uncle Shreesh) the ice cream sticks.

Note how in the first sentence, the pronoun, **he** replaces **Jeet's uncle**.

In the second sentence, **him** replaces **Uncle Shreesh**.

When we use pronouns, we do not have to keep repeating names.
Pronouns are used instead of nouns.

A. Circle the pronouns in these sentences and underline the nouns they stand for. Discuss your answers with your teacher. 

1. Jeet wanted to be a pilot when he grew up.
2. Jeet, his father and Uncle Shreesh built the plane. They used wood to build it.
3. Jeet's uncle was a pilot. He arrived on Saturday.
4. Jeet's father bought the materials. He was eager to get started.
5. Mother made Jeet and his father tea and sandwiches. She wished them luck.
6. "What fun!" cried the children. They were thrilled.

(possessive pronouns; possessive adjectives)

Read these sentences.

Whose plane is this?

- It is **his**. (possessive pronoun)
- This is **his** plane. (possessive adjective)

Mine, ours, yours, his, hers and **theirs** are possessive pronouns.

My, our, your, his, her, and their are possessive adjectives.

B. Work in pairs and complete these sentences with possessive adjectives or possessive pronouns. Share your answers with another pair. Ask them to check your answers while you check theirs. (Hint: Possessive adjectives always come before a noun.)   **TC**

1. This is a wonderful doll. _____ eyes are big and black.
2. There are Mr and Mrs Soni and _____ children.
3. We are late. _____ classes begin at 8.30 a.m.
4. This is my sister's bag, isn't it? I am sure it is _____.
5. She is washing _____ hands.
6. Philip has a lot of books. These are _____.

Using Words

(transport words)

A. Unscramble these transport words. Find them in the grid.   **PS**

B. Jeet's uncle was a pilot. Find out what you would call these people.

Fill in the blanks with words from the box. 21 IL

journalist police officer dentist artist astronaut

1. A person who protects people and keeps them safe is a _____.
2. A person whose job is treating people's teeth is a _____.
3. A person who writes news stories is a _____.
4. A person who travels in space is an _____.
5. A person who paints pictures is an _____.

Assessment of Speaking and Listening

Listening

(listening to instructions)

Given below are the steps to make a paper plane. The steps given here are in the wrong order. Listen to the instructions and put the steps in the right order. Then make the paper plane. 21 PS

- Fold the two top corners into the centre line again in such a way that you get the form in figure 4.

- Now fold the small triangle up over the two flaps. ☐
- Fold the two top corners in to the centre line. ☐
- Fold a sheet in half along the line and then open it out again. ☒ 1
- Then fold the top large triangle over so that the two flaps are underneath the large triangle. ☐
- Fold along the line labelled AB on the diagram, first, one way and then the other, making sure to crease well. Tuck the triangular bit in between the two wings. Your paper plane is now ready! ☒ 8
- Fold along the centre line so that the small triangle is on the underside of the plane on the outside along with the two flaps. ☐
- Fold along the line AB, then turn the plane over and do the same to the other side. ☐

Pronunciation

(consonant sounds in kite and goat)

A. Say these words aloud. Notice that the letters in bold in these words have the same sound. Ask your teacher if your pronunciation is correct. 

kite case pocket check quick kitten

B. Now say these words aloud. Notice that the letters in bold in these words have the same sound. Work in pairs and check your peer's pronunciation. 

goat league game begin egg

Speaking

(giving and following instructions)

You have listened to a set of instructions about how to make a paper plane in the Listening section. Take the help of your teacher and give instructions about making a paper boat.    

You may begin this way.

Take a rectangular sheet of paper...

(completing a flowchart; writing a paragraph)

Fill in the blanks to get the steps that Jeet, his father and his uncle followed to build the plane. Then write it down in a paragraph.

The worksheet consists of eight rectangular boxes arranged in two rows of four. The top row contains pre-written prompts or partial sentences, while the bottom row contains blank space for continuation.

- Box 1 (Top Left):** "First, Uncle Shreesh drew a _____ of the plane."
- Box 2 (Top Second):** "Then, Jeet _____"
- Box 3 (Top Third):** A blank box for writing.
- Box 4 (Top Right):** A blank box for writing.

Arrows indicate the flow of the story from left to right across each row. In the bottom row, the last box contains a prompt:

- Box 8 (Bottom Right):** "Jeet _____
the plane bright _____"

Punctuation

(integrated punctuation)

Work in pairs and rewrite this paragraph with suitable punctuation.

Use capital letters, full stops, commas, question marks and

exclamation marks. 

have you been on a plane jeet is going on a trip it is his first trip by plane
he sits down in the plane and buckles his seatbelt the plane moves very
fast and then takes off houses cars and trees on the ground look like toys
how lovely it is to be up in the air
