Bless the farmers for our food

By their hands we are fed.

Bless the farmers for our wheat

That makes our daily bread.

Bless the farmers for our milk

That makes our children strong.

Bless the farmers for their strength

And for working all day long.

Bless the farmers for being there

To help us all **survive**.

Without their work and **dedication**

"We wouldn't be ALIVE!"

survive
dedication

continue to live or exist
the desire to give a lot of
time and energy into doing
something

Understanding the Poem

 - a. We would learn to grow our own crops.
 - b. We would live on wild fruits and milk.
 - c. We would not survive without the farmers.
 - d. We would manage to live on somehow.

B. Answer these questions. Revise the poem before checking your answers.

1. What do the farmers do for us?
2. How much work do the farmers put in to grow crops for us?
3. Does a farmer require physical strength to work in his/her fields?

C. Think and answer.

(reading for inference; HOTS)

1. What will happen to the rest of us if the farmers stop growing crops one day?
2. Why do the farmers need dedication to grow food for us?

D. Discuss in class.

(value-based question)

1. What kind of treatment do the farmers deserve?
2. Think of some other professions where a person requires a lot of physical strength. What kind of hardships do people face in such professions? Discuss in class.

Appreciation

You have already learnt about the **rhyme scheme** of a poem in a previous lesson. The rhyme scheme of the first four lines of this poem is **ABCB**.

Bless the farmers for our food (A)

By their hands we are fed. (B)

Bless the farmers for our wheat (C)

That makes our daily bread. (B)

Now write the rhyme scheme of the rest of the poem. Show your answer to your teacher.   

Life Skills Activity

(problem solving; empathy)

Imagine you are the head of the 'Farmers' Association' in your village and you look after the welfare of the farmers. Given below are some of the problems faced by farmers in India. Work with your partner and suggest possible solutions to these. You can take the help of the Internet.

bad quality seeds

lack of irrigation facilities

no storage space for surplus crops

Problems faced by farmers

less fertile soil
