

Days, Weeks, Months and Years

Days of the Week

There are 24 hours in a day. 7 days make a **week**.

The names of the days of a week in order are given below:

1. Monday 2. Tuesday 3. Wednesday 4. Thursday 5. Friday 6. Saturday 7. Sunday

Thus, Monday is the **first** day of the week and Sunday is the **last** day.

Thus, if today is Thursday, we can say that:

- (i) yesterday was Wednesday;
- (ii) day before yesterday was Tuesday;
- (ii) tomorrow is Friday;
- (iv) day after tomorrow is Saturday;
- (v) third day after today is Sunday

Months of a Year

There are 12 months in a year. The names of the months in correct order and the number of days contained by them are given below.

S. No.	Name of the Month	Number of Days
1.	January	31
2.	February	28 or 29
3.	March	31
4.	April	30
5.	May	31
6.	June	30
7.	July	31
8.	August	31
9.	September	30
10.	October	31
11.	November	30
12.	December	31

From the above table, it is clear that:

- (i) there are 7 months in a year which have 31 days each;
- (ii) there are 4 months in a year which have 30 days each;
- (iii) two consecutive months which have 31 days each are (July, August) and (December, January).

Ordinary Year and Leap Year

A year completely divisible by 4 is called a **leap year**.

Starting from a leap year, every fourth year is a leap year.

The year which is not a leap year is called an **ordinary year**.

The years 2000, 2004, 2008, 2012, 2016, 2020 and 2024 were leap years. Next leap years would be each one of the years 2028, 2032, 2036 and so on.

Each one of the years 2001, 2002, 2003, 2005, 2006, 2007, 2009, 2010, 2011, 2013, 2014, 2015, 2017, 2018, 2019, 2021, 2022, 2023 and 2025 is an ordinary year.

Remember:

- An ordinary year has 365 days i.e., 52 weeks and 1 day.
- A leap year has 366 days i.e., 52 weeks and 2 days.
- February of each ordinary year has 28 days.
- February of each leap year has 29 days.
- There are 52 complete weeks in a year.

Did You Know?

- 10 years make a **decade**.
- 100 years make a **century**.

For a century year to be a leap year, it must be divisible by 400. Thus, the year 1800 was not a leap year but 2000 was a leap year.

Calendar

Calendar is the record of all the dates of a particular year. It, thus, shows the months, weeks and days in the year. Usually, a list of festivals is also given in the calendar.

The dates corresponding to Sundays are marked in a different colour to indicate holiday.

The calendar for the year 2025 is given below:

Calendar for 2025

JANUARY						
Sun	Mon	Tue	Wed	Thu	Fri	Sat
			1	2	3	4
5	6	7	8	9	10	11
12	13	14	15	16	17	18
19	20	21	22	23	24	25
26	27	28	29	30	31	

FEBRUARY						
Sun	Mon	Tue	Wed	Thu	Fri	Sat
						1
2	3	4	5	6	7	8
9	10	11	12	13	14	15
16	17	18	19	20	21	22
23	24	25	26	27	28	

MARCH						
Sun	Mon	Tue	Wed	Thu	Fri	Sat
						1
2	3	4	5	6	7	8
9	10	11	12	13	14	15
16	17	18	19	20	21	22
23	24	25	26	27	28	29
30	31					

APRIL						
Sun	Mon	Tue	Wed	Thu	Fri	Sat
		1	2	3	4	5
6	7	8	9	10	11	12
13	14	15	16	17	18	19
20	21	22	23	24	25	26
27	28	29	30			

MAY						
Sun	Mon	Tue	Wed	Thu	Fri	Sat
				1	2	3
4	5	6	7	8	9	10
11	12	13	14	15	16	17
18	19	20	21	22	23	24
25	26	27	28	29	30	31

JUNE						
Sun	Mon	Tue	Wed	Thu	Fri	Sat
1	2	3	4	5	6	7
8	9	10	11	12	13	14
15	16	17	18	19	20	21

List of Holidays — 2025

13th	January	Lohri
14th	January	Makar Sankranti, Pongal
26th	January	Republic Day
2nd	February	Basant Panchami
26th	February	Maha Shivratri
14th	March	Holi
31st	March	Id-ul-Fitr
6th	April	Ram Navami
10th	April	Mahavir Jayanti
14th	April	Baisakhi
18th	April	Good Friday
12th	May	Buddha Purnima
6th	July	Muharram
9th	August	Raksha Bandhan
15th	August	Independence Day
16th	August	Janmashtami
5th	September	Onam
2nd	October	Gandhi Jayanti
2nd	October	Dussehra
20th	October	Diwali
22nd	October	Govardhan Puja
23rd	October	Bhai Dooj
5th	November	Guru Nanak Jayanti
25th	December	Christmas

How to Write Dates?

When we write a date for a particular day in a year, we specify the number of the day in a month (i.e., date), the name of the month and then the year.

Examples: 5th January, 2025 or January 5, 2025
7th February, 2025 or February 7, 2025
18th August, 2025 or August 18, 2025

In short, we write a date as a group of 3 numbers separated by two dots. The first number stands for the day, the second number for the month (1 stands for January, 2 for February, 3 for March, ... and 12 for December) and the third number is the year.

Thus, 15th October, 2025 shall be written in short as:

15.	10.	2025
↓	↓	↓
Day	Month	Year

Exercise 61

1. Fill in the blanks.

- Rajan was born on 25.2.2008. We can also say that Rajan was born on 25th, 2008.
- How old will he be in March, 2026?
- How old will he be in March, 2051?
- On what date was he be eight years old?
- How many months old Rajan was on 25th September, 2008?

2. Study the given calendar for the year 2025 carefully and answer the following questions.

- How many Thursdays are there in August, 2025?
- How many months in 2025 have 5 Sundays? Write their names.
- Write the date of your birthday.
- On which day does your birthday fall in the year 2025?
- On which day does the year 2025 begin?
- Find each of the following dates in the given calendar and state the day on which it falls:
23.1.2025, 5.9.2025, 13.12.2025, 28.6.2025

Activity Time

1. Draw a calendar for the year 2025 on a chart paper or an ivory sheet. Colour the dates representing the birthdays of your classmates with their favourite colours and hang it in your class. This will be a ready reckoner for all of you, so that you do not forget to wish each of your classmates on his/her birthday.
2. Find out the dates on which the following scientific events are celebrated. Refer to the calendar for the year 2025 and find the days on which each of the following would be celebrated in 2025?
 - (a) National Youth Day
 - (b) National Science Day
 - (c) International Science Day
 - (d) United Nations Day
 - (e) International Literacy Day
 - (f) World Population Day
 - (g) World Environment Day
 - (h) World Health Day
 - (i) Earth Day
 - (j) World Food Day
3. Take calendars for the years 2023 and 2024. Observe which months in each year have the same calendar. Remember that the months which begin on the same day are said to have the same calendar. Observe if you can find any pattern in the number of days lying between two such months. Is that number divisible by 7? What do you find?

Things to Remember

1. There are 7 days in a week and 12 months in a year.
2. There are 14 days in a fortnight.
3. There are 7 months in a year which have 31 days each.
These are January, March, May, July, August, October and December.
4. There are 4 months in a year which have 30 days each.
These are April, June, September and November.
5. A year completely divisible by 4 is called a leap year.
6. The year which is not a leap year is called an ordinary year.
7. An ordinary year has 365 days, while a leap year has 366 days.
8. February of each ordinary year has 28 days, while February of each leap year has 29 days.
9. 10 years make a decade, while 100 years make a century.

**QUESTION BAG 1****(Objective Type Questions)**

Tick (✓) the correct answer.

1. Which day is three days ahead of Saturday?

- (a) Monday ☐ (b) Tuesday ☐
(c) Wednesday ☐ (d) Thursday ☐

2. Choose the odd one out.

- (a) January ☐ (b) May ☐
(c) August ☐ (d) November ☐

3. Choose the odd one out.

- (a) April ☐ (b) July ☐
(c) November ☐ (d) September ☐

4. How many months in a year have 30 days each?

- (a) 4 ☐ (b) 5 ☐ (c) 6 ☐ (d) 7 ☐

5. How many months in a year have 31 days each?

- (a) 4 ☐ (b) 6 ☐ (c) 7 ☐ (d) 8 ☐

6. How many months are there in 2 years?

- (a) 12 ☐ (b) 18 ☐ (c) 20 ☐ (d) 24 ☐

7. If the day before yesterday was Tuesday, what will be the day tomorrow?

- (a) Thursday ☐ (b) Friday ☐ (c) Saturday ☐ (d) Monday ☐

8. If the day after tomorrow is Sunday, what was the day yesterday?

- (a) Thursday ☐ (b) Wednesday ☐ (c) Friday ☐ (d) Saturday ☐

9. How many days are there in 12 weeks?

- (a) 72 ☐ (b) 80 ☐ (c) 84 ☐ (d) 96 ☐

10. Tanya is making the following calendar for the bulletin board. Which day of the week should be on March 24?

MARCH						
Mon	Tue	Wed	Thu	Fri	Sat	Sun
				1	2	
4	5	6	7	8	9	
11						

- (a) Tuesday ☐ (b) Thursday ☐ (c) Sunday ☐ (d) Saturday ☐
11. Divya's birthday falls on 16th November, which was Saturday. Her sister Ruchi's birthday is six days after that. On which day does Ruchi's birthday fall?
- (a) Sunday ☐ (b) Monday ☐ (c) Tuesday ☐ (d) Friday ☐
12. Which of the following is a leap year?
- (a) 2006 ☐ (b) 2010 ☐ (c) 2012 ☐ (d) 2014 ☐

QUESTION BAG 2

1. Fill in the blanks.

- (a) 1 year = days
- (b) 1 year = months
- (c) 1 leap year = days
- (d) 1 fortnight = days
- (e) 1 decade = years
- (f) 1 century = years
- (g) 1 week = days

2. Circle the years which are leap years.

1998 1992 2006 2000 1994 2008 2010
